AQUACULTURE IN MARINE WATERS

A list of reference books 1967-78

compiled by

André G. Coche
Senior Fishery Resources Officer (Aquaculture)
Inland Water Resources and Aquaculture Service
Fishery Resources and Environment Division

FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS
ROME, November 1979

W/N3980

For bibliographic purposes this document should be cited as follows:

Coche, A.G. (comp.) Aquaculture in marine waters. A list of reference books 1967-78. 1979 FAO Fish.Circ., (723) : 10 p.

A vehicle for distribution of short or epheremal notes, lists, etc., including provisional versions of documents to be issued later in other series.

PREPARATION OF THIS DOCUMENT

The list of selected reference books was prepared to help students, researchers, field workers and laymen locate and retrieve published information on mariculture, aquaculture in brackish and sea waters.

Most of the books selected are less than 10 years old and are still available either from their publisher or from technical bookstores. It is to be noted that Proceedings of meetings, Periodicals and specialized Bibliographies have not been included as they will be the object of another publication.

The titles are listed in chronological order of year of publication. For each particular year, they are listed in alphabetical order of authors' names. Author, taxonomic, geographic and subject indexes provide further assistance in retrieving the information required.

It is hoped that subsequent revisions will make it possible to keep the list current. Suggestions from users of titles which should be added would be welcome. They may be addressed to me, at the Inland Water Resources and Aquaculture Service (FIRI), FAO, 00100 Rome (Italy). A similar list for Aquaculture in Fresh Waters (FAO Fisheries Circular No. 724) is also available.
